

REESE NEWS

After a jam-packed April with the Life House, we had a slower paced May. The LCC children have returned for their second semester of school and the days at LCC are quieter. We even made time for a quick weekend getaway to the amazing Aberdare mountains which are less than a two hour drive from our house. It was a needed time of refreshment for us.

Brandy is still busy with her literacy program, and the children she tutors are progressing really well in their reading. Bobby has been working on designing an elevated water tank for the center. A donor has given LCC several solar water heaters so the children can consistently have warm baths. The water tower is needed to provide enough pressure for the solar heaters to work.

Looking ahead, June is going to be the start of a busy season with several volunteers and teams visiting in June and July. It's always an encouraging time for us to see the energy and renewed perspective that the teams bring. Please pray for safe travel and that God would use the teams to effectively serve the children here, as well as work in the hearts of the team members themselves.

If you would like to support our work please email us for details.

Prayer Requests:

- Continue praying for God to perform a miracle and heal baby Alvin. He has now had several surgeries and has been diagnosed with untreatable lymphangioma.
- Pray for the high school students at boarding school.
- Pray for the volunteer teams as they prepare to come

We continue to wait on our work permits and currently need one more letter from a Kenyan government official before all of the paperwork should be in order. Please pray with us that this comes through quickly.

With love,
Bobby and Brandy

minister to the children here.

- Pray for favor at government offices and the renewal of our work permits for the next two years.
